

BY OPENING THE SEAL ON THIS BOX YOU ACKNOWLEDGE THE FOLLOWING:

**Always scramble your code after closing and vacuum sealing the lid.
SneakGuard™ LLC is not responsible for lockouts.**

SneakGuard™ relies on the combination of the vacuum seal and the lock to prevent entry. Never leave SneakGuard™ unattended unless the lid control ring is in the closed position, with the code scrambled, and the vacuum indicator in the down position.

WARNING:

The lid is **not** properly secured unless the control ring is in the closed position, with the vacuum indicator in the down position, and the lock scrambled. Daily inspection of the lid indicator position is recommended.

Do not leave the lid unattended with the unlock code exposed. Doing so can result in someone resetting the code, causing an irreversible lockout.

DO NOT ATTEMPT TO RESET THE LOCK OR MOVE THE COMBINATION WHEELS UNLESS THE LID IS ON THE CONTAINER AND IN THE FULL CLOSED POSITION.

HOW TO LOCK YOUR SNEAKGUARD.

- 1) With the lid on the container, twist the control clockwise ring to the full closed position
- 2) Pump the vacuum lid until the indicator is in the down position
- 3) Scramble the lock code
- 4) Test to make sure the lid is secure
(Refer to the user guide to change your lock code)

Please evaluate your purchase prior to storing any items inside your SneakGuard™.

Shipping cannabis products is a federal offence. We cannot approve returns that contain cannabis products. All returns are subject to testing and evaluation.

STEP

5 Setting your own combination

Place lid 9 on container 16

NOTE: The combination must be set to the default 0-0-0-0 in order to set your own combination for the first time.

Slide silver lever 6 to the left and hold.
Set combination lock wheels 8 to desired combination.
Release silver lever, 6 lock is now set to new combination.

NOTE: To change your combination, you must first set the combination lock wheels 6 to your most recent combination. If the silver lever does not slide to the left, then you are not using your most recent combination.

NOTE: Keep a copy of your combination in a safe place. If you forget or lose your combination, we cannot open your lock.

NOTE: We recommend that you set your own combination and develop a secure system and location to record your combination, or use the SneakVault™ to digitally store and retrieve your combination from mobile devices, PC or Mac.

NOTE: Visit www.sneakguard.com/vault SneakVault™ free secure 24/7 password retrieval service is for registered SneakGuard™ owners. Register your SneakGuard™ at sneakguard.com/register **Always update your SneakVault™ records when you change your SneakGuard™ combination.**

NOTE: Moisture control packets are not required to operate SneakGuard.™ Visit www.sneakguard.com for more information about when to use and where to purchase.

Caring for your SneakGuard™

STOP

CAUTION: Do Not Store Medicines That May Require Immediate Use. If you have medications that require immediate or urgent access, it is strongly recommended that you secure them somewhere other than your SneakGuard™. If you're not feeling well, you may not be able to remember your combination or may otherwise be unable to open your SneakGuard.™ Call 911 if you are experiencing a medical emergency and are unable to access to your medication(s).

NOTE: Always Practice Safe Responsible Storage.

NOTE: Be responsible. SneakGuard™ is designed as a deterrent against accidental and unwanted access to the contents that you decide to store inside. SneakGuard™ products are not intended to, and cannot prevent access in all situations or under all circumstances. Reasonable precautions should always be taken. Keep SneakGuard™ in a safe place and out of the reach of children.

STEP 1 Opening container

Turn combination lock wheels **8** to the default setting 0-0-0-0.

Grasp container lid **9** with one hand, open control ring **5** by twisting counter clockwise until solid grey indicator circle **4** is aligned with open gray indicator circle **3**.

Using a twisting motion, lift lid **9** off container.

STEP 2 Closing and sealing airtight container

An airtight seal will prevent air from entering and exiting.

Contents should be kept below height of divider **12**. With container **16** on a flat surface, place lid **9** on container, making sure it fits evenly. Press down firmly on lid with one hand, close and seal control ring **5** by twisting clockwise with other hand.

Align solid grey indicator circle **4** with solid gray indicator circle **2**.

CAUTION: SneakGuard™ is now sealed but not locked.

STEP 3 Vacuum sealing container (OPTIONAL)

In addition to an airtight seal, a vacuum seal removes air from the container.

NOTE: Proceed to step **4** if you do not require a vacuum seal.

Grasp container lid **9** with hand. Press vacuum pump **1** with the palm of your other hand. Press repeatedly until the tip of the vacuum indicator **7** is level with the surface of the lid.

Stop pumping

CAUTION: Do not over-pump.

CAUTION: SneakGuard™ is now vacuum sealed but not locked.

STEP 4 Lock container

Scramble combination lock wheels **8**. SneakGuard™ is now locked.

CAUTION: Never leave SneakGuard™ unlocked.

NOTE: Step **2** must be completed in order to turn the combination lock wheels.
